Rutuja C Patil

Senior Angular Developer

+91-9702369057 | rutujacpatil97@gmail.com | linkedin.com/in/rutujacpatil97 | Seawoods, Navi Mumbai, Maharashtra

TECHNICAL SKILLS

Frontend
Angular (8+), TypeScript, JavaScript (ES6+), RxJS, NgRx, HTML5, CSS3

Backend
Node.js, Express.js, REST API Development, JWT Authentication, Role-Based Access Control, CRUD Operations

Databases
MongoDB, SQL

Tools
Git, Postman, VS Code, Chrome DevTools, JIRA, Figma

Cloud & DevOps
AWS ECS, CI/CD Pipelines, JFrog Artifactory, AWS CodeCommit, GitHub, Jenkins

Methodologies
Performance Optimization, State Management, API Integrations, Agile/Scrum, Responsive Design, Cross-Browser Compatibility, Debugging, Unit Testing

EDUCATION

B.E. – Electronics and Telecommunication (2019)
SIES Graduate School of Technology, Nerul – Mumbai University
CGPA: 8.93

H.S.C. – Electronics (2015)
D.G. Ruparel College, Matunga
84.77%

S.S.C. (2013)
D.A.V. Public School, Nerul
92.18%

CERTIFICATIONS

Angular – The Complete Guide
Scrum Foundation Professional Certification
REST APIs
Oracle SQL
Spring Boot

Publication: 32-bit Processor Design on FPGA – UGC Approved JASC Journal (2019)

PROFILE SUMMARY

IT professional with 7 years of experience delivering enterprise-scale web applications in the BFSI domain. Expertise in state management, performance optimization and end-to-end application development. Experienced in leading front-end initiatives and delivering business-critical solutions in Agile environments. Hands-on experience building and deploying full-stack applications with REST APIs, authentication, authorization and cloud deployment workflows.

PROFESSIONAL EXPERIENCE

ICICI Lombard General Insurance Dec 2024 – Aug 2026
Associate Software Engineer (Senior Frontend Engineer)

- Leading front-end development of enterprise-scale Angular applications supporting core insurance business processes.
- Successfully delivered multiple rock projects and business-critical enhancements within committed timelines while ensuring quality and stakeholder satisfaction.
- Played a key role in modernization initiatives using Angular Signals to improve state management and application performance.
- Mentored junior developers, conducted code reviews and ensured adherence to coding standards and best practices.
- Contributed to performance optimization initiatives resulting in improved application responsiveness and user experience.
- Designed and configured reusable custom Angular component libraries adapted across multiple business modules.

Clover Infotech (Client: ICICI Lombard) Jan 2023 – Dec 2024
Senior Software Engineer

- Worked on large-scale insurance applications serving multiple business functions and customer-facing workflows.
- Collaborated closely with business stakeholders, QA teams, and backend teams to deliver high-quality releases within committed timelines.
- Coordinated with cross-functional teams during release cycles to ensure smooth deployments and reliable production support.
- Contributed to application architecture discussions and front-end performance improvement initiatives.
- Participated in Agile ceremonies including sprint planning, daily standups and retrospectives to ensure timely delivery of features.

Tata Consultancy Services (TCS) Jul 2019 – Jan 2023
System Engineer

- Developed enterprise web applications and interactive dashboards for banking domain clients.
- Integrated REST services and implemented complex client-side business workflows using Angular and TypeScript.
- Investigated and resolved high-priority production issues within defined SLA and TAT commitments.
- Managed source control workflows using Git and collaborated within Agile development teams.
- Maintained technical documentation and ensured compliance with coding standards and quality practices.

KEY ACHIEVEMENTS

- 7 years of professional Angular development experience.
- 3.5 years associated with ICICI Lombard insurance platforms.
- Led development of multiple agent-facing insurance modules from implementation through production deployment.
- Recipient of multiple performance and excellence awards including Star of the Quarter, Star of the Month, Best Team Award, and Certificate of Excellence.

FULL STACK PORTFOLIO PROJECT

SmartHelpDesk (MEAN Stack) – Built and deployed a Ticket Management System using the MEAN Stack (MongoDB, Express.js, Angular, Node.js) featuring JWT authentication, role-based access control, REST APIs, ticket lifecycle management, pagination, search, and filtering capabilities. The application allows employees to raise support tickets, administrators to manage users and assign tickets, and engineers to resolve issues through a structured workflow.

Tech Stack: Angular, TypeScript, Node.js, Express.js, JavaScript, MongoDB, JWT, REST APIs, GitHub, Vercel, Render

Live Demo: smarthelpdesk-frontend.vercel.app

GitHub: Frontend Repo | Backend Repo

PROJECT HIGHLIGHTS

NYSA Motor Insurance – Developed and enhanced agent-facing end-to-end motor insurance journeys for Two-Wheeler and Four-Wheeler products covering Own Damage (OD), Third Party (TP), New Business, Rollover, and Used Vehicle flows. Contributed across the complete customer journey including Quote Generation, Premium Calculation, Proposal Creation, Payment Processing and Policy Issuance.

Multi Quote – Contributed to complete application revamp using latest technologies providing multi-tenure quotation journeys enabling customers to compare and select from multiple quote options. Primarily worked on AddOn and Discount modules involving complex logic and business rules.

Issuance & Endorsement QC – Designed and developed a quality control portal used for proposal verification during policy issuance and endorsement workflows. Implemented document review capabilities with slideshow-based document presentation and reason-wise approval/rejection workflows for underwriting and operations teams.

Add-on Applicability – Implemented dynamic add-on recommendation and eligibility logic based on vehicle details and business rules. Developed support for API-driven add-on bundles including Zero Depreciation, Consumables, Roadside Assistance, Tyre Protect, and Engine Protect with real-time premium recalculation based on customer selections.
